DInGO toolset: dArceo
Get in touch with us on: help@dlibra.psnk.pl

- Long term preservation tool for images, texts and audiovisual content.
- Based on 10 years of experience in operational and maintenance activities.
- Simple, yet powerful tool to create, store and retrieve archival packages aligned with OAIS model.
- Provides REST API.
- Uses METS, MIX, PREMIS and alike standards to compose an archival package and then submit it to a storage system.
- Extracts technical metadata with help of tools such as FITS or ffmpeg.
